Entered at the Postoffice at Honolulu as second-class matter

TUESDAY OCTOBER 10, 1911

It is not work that kills men; it is worry. Work is healthy; you can hardly put more upon a man than he can bear. Worry is rust upon the blade. It is not the revolution that destroys the machinery, but the friction. —Henry Ward Beecher.

That every vote helps has been demonstrated in the recent Maine elections.

Somebody will suggest shortly that the Boy Scouts are responsible for the high cost of living.

A lawn mower and a snowshovel will soon represent the difference between Hawaii and the States.

The woman's suffrage question is agitating Holland. Evidently the opponents of "Votes for Women" are in Dutch" somewhere.

At least, Honolulu can put up a splendid Y. M. C. A. building without worrying about whether it fits into a "civic center" or not.

In view of the San Francisco man's notable record, it seems paradoxical that because Surgeon Carter isn't coming we should get blue.

There are a number of citizens of this Territory that are every ready to let fly both barrels at the dove of peace if it attempts to light.

Says the Chicago Daily News: "A safe and sane sanitary district board is a want keenly felt." Well, there's George R. over on the mainland now!

July, 1913, is the latest date set for the completion of the Panama canal. Meanwhile the new Federal building here is rapidly nearing completion.

If sugar continues to climb as it has been doing, the size of the pound box of candy will have to be cut to six ounces instead of the regulation eight ounces.

This seems to be an era of ultimatum, especially across the pond. If the widespread popular unrest of Europe comes to the surface there will be some internal spasms that are liable to create a new map.

The new Republic of Portugal sent a cablegram of friendly greeting and thanks to its consul in Honolulu. On the same day, monarchist riots broke out. The infant in the family of nations is having some teething troubles.

The new Russian official put in charge of Kiev since the assassination of Premier Stolypin complains that so many Jews are fleeing a general alarm is imminent, and blames the Jews. Sort of like blaming a man for getting out of his house when it catches fire.

Taft and Roosevelt have split over the arbitration treaties. Likewise over the question of race suicide, the President taking occasion at Detroit to remark that the "crop of babies" is the nation's biggest crop this year. Attention is respectfully drawn to the Hawaiian sugar crop.

Aviator C. P. Rodgers, flying from Coast to Coast for the \$50,000 Hearst prize, flew from Joliet, Ill., to Peoria yesterday. The report that Rodgers was a banker "out on parole" seems to have been an exaggeration. There are some bankers at Joliet, but up-to-date none have flown out.

EVENING SMILES

"Catching anything?"

"None."

"You don't seem to mind."

"I'm just as well satisfied. I don't care to have cheap fish tangling up these expensive lines."

"How's your boy about school?"

"Very ambitious. He wants to get so he can figure the baseball percent-

ages for himself."

A man went into a store to buy a fountain pen. The young saleswoman gave him one to try, and he covered several sheets of paper with the words "Temple Fugit."

The obliging venduee offered him another pen. "Perhaps," she said, "you'd like one of these stubs better, Mr. Fugit."

Hawaii should allow California to take this action; our surest defense is in supervising our fruit shipments with extreme and intelligent care; and the paper that minimizes the danger solely because it was "beaten" on the news may be trusted to come panting in several days hence with further confirmation of what could have been confirmed long ago.

THE TEIRL HARBOR ASSET.

In another column of this paper today will be found the announcement of very important plans on the part of the Bureau of Yards and Docks at Washington for the Naval Station at Pearl Harbor. Honolulu has been watching the work at the new station site eagerly since it was started, and the recent news from Washington is the best possible assurance that the era of development at the harbor has just started, and that during the next two years the work will be doubled and trebled.

Honolulu will benefit in many ways by this great work. First, of course, is the fact that this outpost will be supplied with adequate defenses. War talk is at a discount, just now, and rightly so, but if no other lesson were available, that furnished by poor, humiliated Turkey is sufficient to teach the gospel of "preparedness."

Honolulu will benefit directly in increase of business, the influx of white labor such as of necessity must be brought here, the establishment of officers in and around the city and all the added life of a big military organization. Almost as directly also Honolulu will gain by the tourist traffic that will undoubtedly follow the advertising that the "Gibraltar of the Pacific" is getting in increasing quantities.

We can't get too much of this kind of attention from Washington. Every appropriation is a step toward a hundred thousand population for Honolulu.

POLICE AT RIOTOUS SCENES

(Continued from Page 1)
It was Mrs. James Lees Ladd, chairman of the Women's Suffrage party of New York City, who by her individual efforts induced the women of California to organize for the purpose of making a fight for suffrage. The ground was well prepared, and when the Legislature voted for the submission of the women's suffrage amendment to the State constitution, the organized women of the State were ready to begin the battle. Fully realizing the importance of a thorough and energetic campaign the women of California sent out an appeal to the friends of women's suffrage throughout the United States and elsewhere. Nobly did their friends respond to the appeal. J. H. Brady, of Pasadena, a retired business man of great wealth, organized under the name of The Political Equality League a powerful body of prominent men and women bound together by the common desire to aid the women's suffrage movement.

In every State of the Union where there are friends of woman's suffrage, meetings were held, resolutions passed, giving moral support to the battling suffragists in California and funds were contributed to help the women of this State in their great struggle. The women of New York, headed by Mrs. Ladd, willingly came to the assistance of their sisters on the Pacific coast. Miss Jeanette, sent by Mrs. Ladd; Mrs. Helen K. Hoy-Greeley, Mrs. Archibald C. Fisk and other distinguished leaders and organizers of the woman's suffrage movement in Greater New York, came to California to help by word and deed in the campaign. Large sums were raised during the week of self-denial, when men and women, anxious to help the women in California, denied themselves some luxuries and contributed the money thus saved to the campaign fund.

The women throughout the State were thoroughly organized and everywhere meetings were held, speeches made and literature distributed. In many places house-to-house canvasses were made by special committees of women and all men favorable to the movement were enlisted in the campaign.

The opposition, which includes many distinguished and powerful men, like Gen. Harrison Gray Otis, former United States Senator Frank P. Flint, Oscar P. Lawlor, ex-assistant United States Attorney-General in the Department of the Interior; ex-United States Senator Cornelius Cole, President Benjamin Ide Wheeler, of the University of California, and many others, has by no means been idle and is still carrying on its campaign in all parts of the State, counteracting the efforts of the suffragists with great shrewdness and ability. The outcome is still doubtful, but the women are confident of success.

Gaby Deslys, the French actress, whose friendship for the former King of Portugal is said to have figured in deposing him, arrived in New York.

"HEALTH PARTY" OFF FOR HAWAII

The "health party," consisting of President Pratt of the Board of Health, Health Officer Shepherd, Secretary E. A. Mott-Smith and Charles S. Weight, who are to make a tour of Hawaii, left at noon on the Mauna Loa. They expect to return about Saturday week. The present plan is to land at Kailua and work around to Kona and Kau. From there they will get to Hilo. While at the latter place they will make a run out to Puna and back again, and will then proceed along to Hamakua and to Kuluhaele, and from there to Waimea. After they have finished at the last place they will cross the Kohala range and drop down into Kohala, taking the Mauna Kea at Mahukona for Honolulu again.

RESCUED MAN SENDS THANKS

George McKinlay, the young man lost for two days in the mountains and found late yesterday afternoon by a search party, was sufficiently recovered this morning to thank those who participated in his rescue. He has sent the following communication to the Bulletin:

To the Editor of the Bulletin:
Dear Sir:—If space permits, I should like through your columns to express my thanks to those friends who showed their active interest in attempting my rescue, to all of whom I should like to give the assurance that their efforts and kindness are deeply appreciated. To the Police Department I must tender my thanks for the prompt and efficient manner in which they rescued me. The four men who undertook the mission did so in the most workmanlike and efficient manner in extricating me from an exceedingly difficult position, and the heartiness and sympathy which they showed can never be forgotten. Thanking you, Sir, for this courtesy, I remain

Yours faithfully,
GEO. MCKINLAY.

STOCKS GO UP UNDER STIMULUS

A belated rush of investors looking for the good things with sugar stocks low helped materially to stimulate the market today. The most noticeable recovery was that of Oahu Sugar, which went to 32.75 at the session of the exchange, and sold readily at that price.

Wahiua recorded an advance of a point, a number of small blocks selling at 121.50. Hawaiian Commercial rose 50 cents a share under the impact of several large orders, one of them being for 250 shares at 40.50. Wahiua's regular dividend of \$1 was declared today and Hutchinson cut the usual 10 cents.

Appreciation Of Pure Milk

That the users of milk are appreciating the success of our efforts to furnish only pure, healthy milk is clearly shown by the constant additions to our list of customers. Our cows are perfectly healthy, and the milking and handling is done under the most sanitary conditions. When the milk reaches our depot on Sheridan street it is treated by an advanced electrical process. We deliver only pure milk.
